

Regrade policy for STAT 405/705 Spring 2019

1. There will be a one week window for regrade requests, starting from the time the solutions to the homework are posted.
2. If you think that a question has been misgraded you need to submit your regrade request in writing (an email is OK) to Hongji. The request should include both the question text and your answer. Identify how many points were deducted as well as a comment as to why you believe the question was misgraded.
